

I am extremely disturbed to know that Sinclair Broadcasting is making their stations air a clearly one-sided political film just before the election. Showing this anti-Kerry documentary at this time shows us how dangerous it is to have the amount of media consolidation we now have. When a few large companies control the airwaves, we get less of what we need for our democracy. .

Why should our public airwaves be used to further the interests of this large company when it is supposed by law to serve the public interest as a whole.

Sinclair's actions show why we need to strengthen media ownership rules so the public can be better served. Thank you.
